+91 9594279786 | aliraza.syed2007@gmail.com | linkedin.com/in/-ali-raza-syed987 | github.com/aliraza-987

EDUCATION

AFAC Junior College, Mumbai, India

June 2025 – May 2026

Grade 12 | Subjects: English, IT, Physics, Chemistry, Mathematics, Psychology
Predicted Scores: Mathematics – 99/100 | IT – 98/100 | Overall – 90%+

St. Gregorios High School, Mumbai, India

Until May 2023

Grade 10 | Overall: 92.33% | English: 99/100 | Mathematics: 96/100 | Computer Science: 92/100

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML, CSS.

Tools & Frameworks: Flask, SQLite, NumPy, Pandas, Matplotlib, Scikit-Learn, TensorFlow, Keras, XGBoost, Groq API, Git, GitHub, Render.

Domains: Machine Learning, Data Science, Natural Language Processing, Deep Learning, REST APIs, Cloud Deployment.

PROJECTS

InterviewIQ

interviewiq-83bs.onrender.com |
github.com/aliraza-987

Python, Flask, Groq LLM API (llama-3.3-70b), SQLite, HTML, CSS, JavaScript — Live | Deployment & Testing Phase

- Built a full-stack **AI-powered mock interview platform** supporting Coding, Behavioural, System Design and General interview types across Easy, Medium and Hard difficulty levels.
- Engineered real-time **SSE streaming** responses, persistent SQLite session storage, **analytics dashboard** tracking ratings and duration, transcript export, and voice input via Web Speech API.
- Deployed live on Render with auto-deploy on GitHub push; **500+ interview sessions** conducted during testing across Penn students and early users.

Diabetes Risk Prediction

github.com/aliraza-987

Python, NumPy, Pandas, Scikit-Learn — Classification | Healthcare ML

- Developed a **supervised machine learning model** to predict diabetes risk from clinical features, applying data preprocessing, feature engineering and model evaluation with cross-validation.
- Demonstrated **end-to-end ML pipeline** skills from raw data ingestion to a deployable prediction model with clean documentation.

Fake News Detection

github.com/aliraza-987

Python, NLP, TF-IDF, Scikit-Learn, Pandas — NLP | Text Classification

- Built a **binary text classifier** to identify fake news articles using **TF-IDF vectorization** and supervised learning, demonstrating applied NLP skills on real-world misinformation data.

ACHIEVEMENTS & AWARDS

- Certificate of Excellence** — St. Gregorios High School, for achieving highest grades in English (99/100) and Mathematics (96/100) in Grade 10.
- MLA Award** — Recognised by MLA Abu Asim Azmi, Mumbai, with certificate, award and tablet for 99/100 English, 96/100 Maths and 92.33% overall in Grade 10.
- Cricket Championships** — Multiple certificates and trophies for cricket at local and championship level, demonstrating teamwork and consistent performance.
- Social Service & Cultural Certificates — Multiple certificates from school for community service and cultural activities across junior and senior years.

CERTIFICATIONS & COURSES

- Complete Data Science, Machine Learning, DL & NLP Bootcamp** — Udemy | Instructor: Krish Naik, KRISHAI Technologies | 99 hours | Completed Feb 2026.

EXTRACURRICULAR ACTIVITIES

- Charity Operations — **Led full ground operations** for a large-scale family charity event providing food to 1,000+ people; managed raw materials, cooks, volunteers and on-ground logistics.
- Social Service — Consistently involved in social service and cultural programmes throughout school, recognised with multiple institutional certificates.
- Cricket — Active cricket player with certificates and trophies at local and championship level.
